
InterMeZo Housing

- ✓ Design front
- ✓ Functional front
- ✓ Variable in three dimensions
- ✓ Can be RFI-shielded
- ✓ Mechanical protection up to IP 54

InterCase Desktop Housing

- ✓ Easy construction
- ✓ Service friendly
- ✓ Variable dimensions
- ✓ Can be RFI-shielded

InterLock Housing

- ✓ Covering of subracks
- ✓ Easy mounting without screws

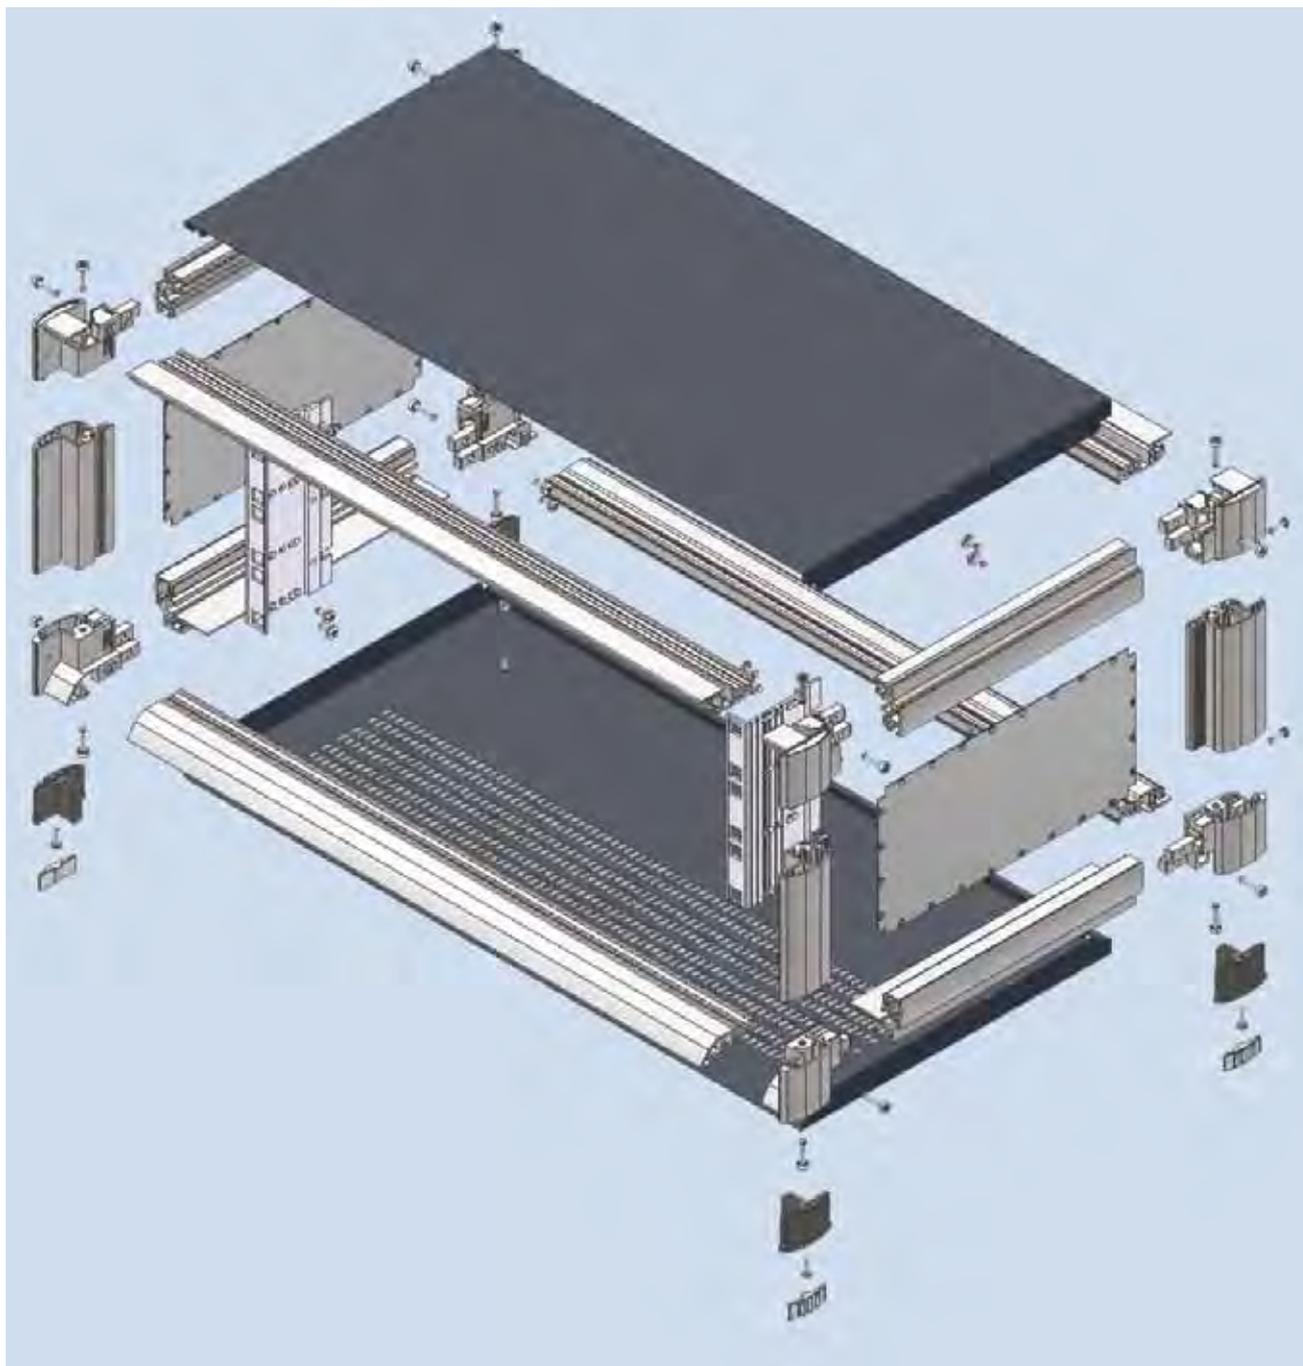

DiVar Housing

- ✓ 19" rack mounted for customized housing
- ✓ Unrestricted configuration and installation
- ✓ Cover plates removable

InterMeZo Housing

Requirements

A modern housing flexible in its applications, with a modular design, can be RFI-shielded and ventilated, in an attractive design and at a reasonable price: InterMeZo

Construction

1. Housing frame

The InterMeZo housing is based on a framework construction consisting of profiles and corner connectors. This flexible design also enables fast and cost-effective assembly of individual housing sizes

2. Easy to access

For quick access to the installed electronics the cover plates are pressed into profiled grooves and secured with two screws.

3. RFI shielding

The side walls are pressed into profile grooves; contact elements ensure RFI-shielded bonding. To achieve effective protection of the housing against dust and water the cover panels, the rear wall and the door can all be fitted with seals.

4. Mechanical sealing

To achieve effective protection of the housing against dust and water the cover panels, the rear wall and the door can all be fitted with seals.

5. Recessed grips

Grips for easy transportation are formed by the recessed mounting of the side walls.

6. Equipment supports

Subracks can be installed variably as the housing depth permits.

7. Chassis panels

The depth profiles are provided with grooves in which chassis panels or similar can be fitted at any depth with the aid of spring nuts.

Summary

The InterMeZo housing from InterMas is a modular and cost-effective housing solution for high-quality industrial electronics in a visually attractive design, developed for the highest possible flexibility and simplest possible assembly, with expansion capabilities for more demanding needs, compliant with stringent EMI/ESD protection specifications, and with extensive configuration options to fulfil application-specific requirements.

Technical data

Materials	casing: aluminum profiles
	corner connectors: die-cast zinc
Finish	feet: ABS
	other parts: 0.8 mm galvanized sheet steel
Finish	standard for rear wall and cover panels: painted dark gray (RAL DS 5500)
	standard for casing and side walls: painted light gray (RAL DS 7000)
	feet: dark gray

Versions

The *InterMeZo housings* are available to assembly 19"- or metric subracks. Alternatively, any dimensions for variable applications are possible.

For all versions the possibility exists to choose between the following types.

1. Design front

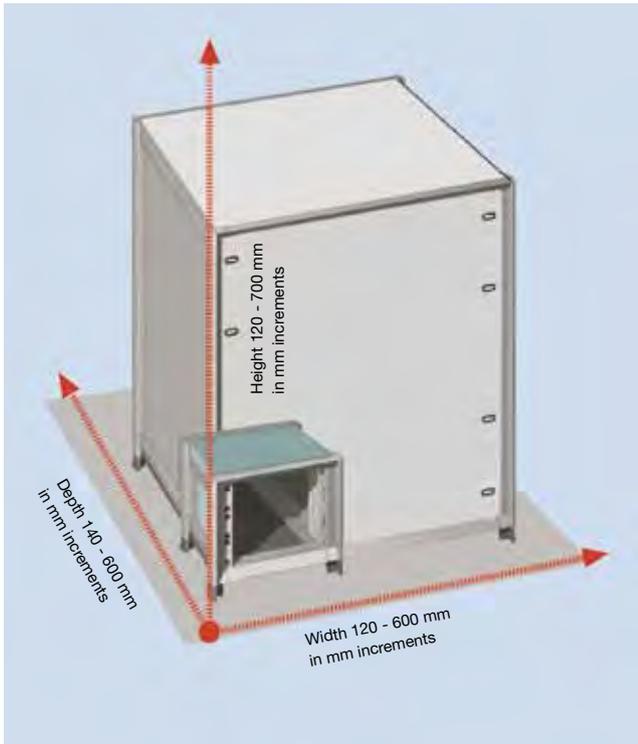

This version has been constructed in terms of a harmonic front design for use with a wide range of applications.

2. Functional front

For higher protection against dust and water as well as EMC shielding.

InterCase Desktop Housing

Description

The special design features of the *InterCase* desktop housing:

- ✓ A desktop housing with a simple design for standardized plug-in units and individual assemblies.
- ✓ The easy to access design allows all covering parts to be removed at any time.
- ✓ The bottom cover and the rear panel are provided with louvers.
- ✓ The side plates include perforations for attaching profile rails at different board depths.
- ✓ The comprehensive range of Internas subrack accessories allows individual configuration of the desktop housing.
- ✓ Can be RFI-shielded.

Technical Data

Material	Aluminum feet: plastic
Finish	side plates: blank side panels and rear panel: painted feet: black

Delivery:

- 2 top/bottom panels
- 2 side plates
- 2 side panels
- 4 profile rails front/rear

Description

The *InterLock* desktop housing has been designed to cover subracks. Also System-Module can be dressed up.

The special design features of the *InterLock* desktop housing:

- ✓ The covering elements are formed from recyclable polystyrene plate-material warmly and the joints are welded together by means of a chlorine carbon solution coldly.
- ✓ Material strength of 4 to 10 mm can be processed according to demand of the device.
- ✓ Easy assembly or disassembly of the case shells. Both case shells are locked by a clamp groove without screws.
- ✓ The case is upgradeable by feet and handles.
- ✓ However, on account of an economic manufacturing technology special dimensions or special colors can be also already realised for small quantities at a reasonable price.
- ✓ Extensive range of accessories is available.

DiVar Housing

Delivery

The DiVar housing is delivered unassembled as individual parts or as a kit

DiVar housing as individual housing

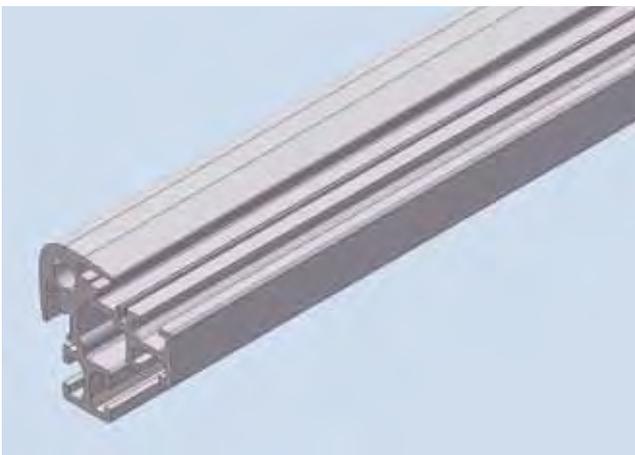

Description

The special design features of the DiVar housing:

- ✓ It consists of profiles into which aluminum, sheet steel, stainless steel or plastic panels with a thickness of 1.5 to 2.5 mm are inserted and, if desired, secured with screws. A wall panel at the rear and a panel at the front are screwed to the profiles.
- ✓ The flexible design allows variable configuration of the housing geometry in all three axes, this allowing adaptation of the housing to customer-specific requirements.
- ✓ Different surfaces can be selected for an individual appearance.
- ✓ The proven RFI contact spring concept ensures optimum RFI shielding.
- ✓ Rails with threaded holes can be pressed into the profile grooves, for example to screw in PCBs or mounting plates.
- ✓ The extensive range of Intermas accessories allows unrestricted configuration and installation of both standardized and non-standard components.

The housing can be supplied in 4 versions:

1. Customized housing
2. 19" rack mounted
3. Desktop housing with a keyboard area
4. Desktop housing with a continuous slanting surface
